**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James N. Baker (Reg. # 40,899) on 3/14/2009.

The application has been amended as follows: (changes are underlined)

Claim 2 (Currently Amended): A foldable electronic device comprising:

a main body (1),

a closure (2),

a main display (4),

a subdisplay (5),

a frame (6),

a chip mount area (42) of a flexible lead (41) extending from the main display (4),

and

a chip mount area (53) of a flexible lead (51) extending from the subdisplay (5),

the main body and the closure being connected to each other openably, the main display having a screen exposed from an inner surface of the closure (2), the subdisplay (5) having a screen exposed from a back surface of the closure (2), the frame (6) being provided inside the closure (2) and holding therein the main display (4) and the subdisplay (5) as arranged back to back, the chip mount area (42) and the chip mount

area (53) being opposed to each other in an opening formed by the frame (6), the opposed surfaces of the respective chip mount areas (42)(53) having at least one portion with a group of electronic circuit chips (43)(54) mounted thereon and at least one portion free of a group of electronic circuit chips,

wherein the at least one portion of the chip mount area (42) of the flexible lead (41) having a group of electronic circuit chips (43) opposes the at least one portion of the chip mount area (53) free of a group of electronic circuit chips,

the at least one portion of the chip mount area (53) of the flexible lead (51) having a group of electronic circuit chips (54) opposes the at least one portion of the chip mount area (42) free of a group of electronic circuit chips, and

the flexible lead (51) extending from the subdisplay (5) has an outer end portion folded over toward the frame (6) side, and the folded-over portion has a surface opposed to the frame (6) and providing the chip mount area (53),

wherein the frame (6) has said opening in a second area thereof adjacent to a first area thereof covered with the subdisplay (5), and the flexible lead (51) extending from the subdisplay (5) is folded over on the second area,

wherein the flexible lead (41) extending from the main display (4) is folded over toward the frame (6) side, and the folded-over lead portion has a surface opposed to the frame (6) and providing the chip mount area (42),

wherein the electronic circuit chips (54) in the chip mount area (53) of the flexible lead (51) extending from the subdisplay (5) and the electronic circuit chips (43) in the

chip mount area (42) of the flexible lead (41) extending from the main display (4) are positioned in a staggered meshing relation within said opening formed by frame (6),

wherein frame (6) is disposed between flexible lead (41) and flexible lead (51) with electronic circuit chips (54) and electronic circuit chips (43) extending through said opening formed by frame (6) to mesh absent any component of said foldable electronic device arranged between said electronic circuit chips (54) and said electronic circuit chips (43), and

wherein a plane defined by frame (6) corresponding to said opening formed by frame (6) intersects at least one of electronic chips (54) and at least one of electronic chips (43).

2. The following is an examiner's statement of reasons for allowance: Claim 2 recites, *inter alia*, a foldable electronic device with a specific combination of features that is neither taught nor suggested by prior art of record. The closest prior art of record, Kweon et al. differs from the claimed invention by not suggesting a plane defined by a frame that corresponds to an opening in the frame intersects electronic chips mounted on both flexible leads.

Further, Applicant's claims are allowed for these reasons and the reasons set forth in the amendments filed on 2/8/2006, 11/20/2006, 6/11/2007, 8/7/2007, 1/15/2008, 7/9/2008 and 2/12/2009.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
